Professional Summary

Full-Stack Software Developer with expertise in building scalable, user-focused web and mobile applications. Experienced across SaaS platforms, dashboards, landing pages, and enterprise systems. Proficient in React, Next.js, React Native, Node.js, Express.js, PHP, Laravel, and TypeScript. Adept at database optimization, cloud-ready solutions, and cross-functional collaboration. Passionate about solving business problems with clean, efficient code.

Technical Skills

Frontend: React, Next.js, React Native, JavaScript (ES6+), TypeScript, Tailwind CSS, Framer UI

Backend: Node.js, Express.js, PHP, Laravel, CodeIgniter

Databases: MySQL, PostgreSQL

Other Tools: Git/GitHub, WordPress, LaTeX, TikZ, Docker

Soft Skills: Leadership, Teamwork, Communication, Problem-solving

Professional Experience

AVS Studio | Remote

Full Software Developer | Feb 2025 – Present

- Built the On-The-Go Mobile App using React Native & Node.js, enabling real-time services and boosting user adoption across Android/iOS.
- Designed and deployed multiple interactive dashboards for analytics and reporting with React, Next.js, and TypeScript, improving decision-making efficiency.
- Developed conversion-driven landing pages using Framer UI, Tailwind, and Next.js, which increased client lead generation rates.
- Integrated secure backend services with Express.js, PHP, and Laravel, ensuring data protection and system reliability.
- Streamlined reusable UI libraries in TypeScript & React, cutting frontend development time by 25%.
- Collaborated with cross-functional teams (design, product, backend) to deliver scalable, high-performance applications.

JavaPlus Innovation | Lagos

Web Developer & Instructor | Jul 2023 – Jan 2025

- Developed and maintained web platforms using React, Next.js, and Node.js, improving scalability and responsiveness for enterprise clients.
- Designed a student learning portal with real-time assessments and quizzes, enhancing engagement for over 200 learners.
- Conducted coding workshops and mentorship programs in JavaScript, React, and modern web practices, improving trainee job placement rates.
- Optimized frontend performance by reducing render times by 30% through code-splitting and lazy loading.
- Authored technical diagrams and documentation with LaTeX & TikZ, standardizing internal processes.
- Collaborated with designers and product managers to build feature-rich, user-friendly applications for clients.

Fast Plus Innovation | Lagos

Software Developer | Oct 2022 – Apr 2023

- Delivered a Finance SaaS application with Laravel & React, enabling secure transactions, budget tracking, and analytics dashboards.
- Built a Digital Library System with PHP, Laravel, and MySQL, supporting cataloging, lending, and user authentication for academic clients.
- Migrated and optimized MySQL queries, reducing response time by 40% and improving system scalability.

- Modernized legacy codebases and integrated CodeIgniter modules, reducing system downtime.
- Designed API endpoints with Laravel & Node.js, enabling mobile/web interoperability.
- Worked closely with QA teams to test, debug, and release features, cutting bug reports by 20% post-deployment.

First Lincoln Technology | Lagos

Software Developer (Internship) | 2020 – 2022

- Contributed to the development of e-commerce platforms using Laravel, WordPress, and React, improving checkout flow and increasing conversion rates.
- Developed dynamic front-end UIs with React, JavaScript, and Bootstrap, boosting site engagement and responsiveness.
- Designed custom WordPress themes and plugins, tailoring solutions to client branding needs.
- Assisted in backend API development with PHP/Laravel, handling authentication and content management.
- Conducted web research and competitive analysis, providing insights that guided client project improvements.
- Collaborated on cross-team projects to ensure websites were scalable, secure, and mobile-friendly.

Education

National Open University Nigeria — B.Sc. Information Technology | 2019 – Feb 2024

Relevant Coursework: Networking & Security, AI & Data Science, Software Engineering
